New Teachers at SCJH!

Why Science Rocks!

By Blaze Welsh

Photo Credit: Blaze Welsh

Mr. Cetrulo is the new science teacher here at SCJH. He's been a classroom teacher for six years, and he taught for ten years at the Sea Lab in California. His favorite topic to teach in Earth and Space Science is plate tectonic; genetics is his favorite topic to teach in Life Science. He taught at Saint Helen's Catholic School before he came here to teach. When making a comparison between teaching here at SCJH and teaching at other schools, Mr. Cetrulo stated, "This school is way more organized. The students are not all the same; they are all great individuals." Some of his favorite activities that he enjoys doing outside of school are swimming and fishing. "I just like being outside," he added. One last thing he wanted to share with everyone about himself: "Edible, non-toxic foods are always welcome."

Mr. Bernstein

by Alaina Roberts and Mila Discenza

BANG, CLASH!!! Did you hear that? Yes, and I think it's coming from over there. WOW!! It's Mr. Bernstein. He has his own band and preforms for tons of people. That's cool!! He also enjoys playing golf, music, poker and fishing. Mr. B has found his comfort here at SCJH. Students here can be challenging, but he loves them and will be sad when the switch of electives happens next semester. Mr. B has taught students before, but only one on one. His favorite thing about SCJH is "the staff, teachers, and students who come here."

Mrs. Franek
by Emily Zamarripa and Alaina Roberts

Mrs. Franek is the new Spanish and Art teacher here at SCJH. Mrs. Frank's first language is Spanish, and she not only teaches art; it is a hobby of hers too. Mrs. Franek has taught at other schools and so far she said this is her favorite school. She likes the teachers, staff, and students here in SCJH. She loves both Art and Spanish, if she could choose one or the other she wouldn't know because she likes them both very much.

Sports

By Pearl Freestone

The SCJH soccer team has been playing with heart and determination to snag two wins out of three games these last two weeks. They have worked so hard to win against Palm Bay and Imagine but lost against Storm Grove 3-1. The soccer team has done a amazing job! Go Eagles!!

Student Life

Mentor Day

Every month, on the early release Wednesday, is Mentor Day at SCJH. While in their homerooms, students participate in different activities with their peers. This month, the activity focused on team building skills. Students were split into groups and given a list of tasks to complete for points. Students worked with their peers to complete as many tasks to rack up the most points for their team.

Student of the Week

Every week ENN selects a student to be featured in the newspaper. Richard Oliveira, a sixth grader, was selected as the student of the week. ENN student reporter, Gavin Fishman, spoke with Richard.

Gavin Fishman: If there was one thing you could change about the school, what would it be?

Richard Oliveira: Longer lunch

Gavin Fishman: How do you like middle school?

Richard Oliveira: I like it so far

Gavin Fishman: Are you participating in afterschool clubs? if so, which one?

Richard Oliveira: None right now

Gavin Fishman: What is your favorite hobby?

Richard Oliveira: Sports

Gavin Fishman: Are you participating in any activities out of school, if so, what?

Richard Oliveira: Soccer and Basketball

S.T.E.M Ecosystem Project

By Francesca Russo, Zahra Qizilbash, and Katelynn Wood

In Mrs. Reeves S.T.E.M class, the students have been working on a diorama representing an ecosystem. They bring supplies from home and get to create their dioramas in class! They got to choose from ecosystems like marine life, rainforests, deserts, forests, and grasslands. The students worked very hard and a limited time of three days to finish the diorama and write a paragraph about the ecosystem to go with it. Some students even stayed after school to work on it.

Science

By Francesca Russo and Katelynn Wood

Mr. Cetrulo teaches 6th grade earth science and 7th grade life science. Katelynn Wood and Francesca Russo interviewed him during 6th period. He answered a couple of questions for Katelynn and Francesca.

ENN: What is your favorite part about teaching at SCJH?

Mr. Cetrulo: "My favorite part is the students. They are an interesting and diverse group."

ENN: What is the project you have had the most fun with so far?

Mr. Cetrulo: "I like doing station labs because I get to work in small groups with the students."

DIY

How to make Skittles Pencil Pouch

By Brennan Richards and Noah Foxx

1. Buy a skittles bag.
2. Cut the top of the bag with scissors right on the seam.
3. Eat the skittles.
4. Clean out the sugar in the bag.
5. Wrap the wrapper in clear packing tape.
6. Take the zipper off another object and use it for the pencil pouch.

Trivia

By Hailey Brewer and Hassan Sharar

Q: What does the acronym for CPU stand for when it refers to a computer?

Q: What was the first video game that allowed the game to be saved?

Q: A wombat is a marsupial native to which country?

Q: What is the only mammal than can truly fly?

Recipe

 Scandinavian Almond Cake

Spray pan with Pam or Cooking Spray
Beat well: 1 1/4 cup sugar, 1 egg, 1 1/2 teaspoons pure almond extract
2/3 cups milk
Add: 1 1/4 cup flour, 1/2 teaspoon baking powder
Add: 1 stick melted margarine
Mix well
(50 - 55 minutes)
Bake at 350 for 40 - 50 minutes. Edges must be golden brown.
Cool in pan before removing. Cake will break if removed too soon.
Sprinkle with confectionary sugar.

Variation: Before pouring batter into the pan, sprinkle sliced almonds on the bottom.
